**Collection**
Date (yyyy-Mon-dd) | Time (24 hr) | Location | Collector ID |

**Stat ECGs are not available. Patients with cardiac symptoms should be referred to nearest emergency department. All ECGs on patients 16 years or younger are read by a pediatric cardiologist**

**Select preferred reader and interpretation status.** If section is incomplete, ECG will be sent to default reader for routine interpretation

- Default Reader:
  - Routine Interpretation: Report required next business day
  - Priority Interpretation: Report required same business day. Should only be requested if same day treatment required

- Alternate Reader: To be read by:
  - (Full first name) (Full last name) (both must be provided)

- Routine Interpretation
- Priority Interpretation: The ordering physician is responsible for making arrangements for preferred reader to be available to receive fax of un-interpreted ECG on day of recording.

**Fax copy of un-interpreted ECG to Ordering Physician:**
Should only be requested if same day treatment is required before interpretation is available from reading physician

If a fax of the final report is required, this must be requested from the reading physician.

CLS does not fax final ECG reports. Final reports are available in NetCare.

Fax Number must be provided: ____________________________

- Provide copy of un-interpreted ECG to patient.

**Patient Instructions**
- Avoid use of oily or greasy skin creams on the day of testing as it causes interference.
- Avoid wearing full length hosiery as sensors must be applied directly to skin.

**CLS Use Only:**
- Patient has pacemaker? (circle one) Yes or No
- Patient contact information for 3 hours after ECG completed: ____________________________
